Report on “One Day workshop on Web Page Design”

Objective: To enhance technical knowledge and to build confidence among students on specific web designing skill sets.

Electronics and Telecommunication Department, JSCOE has organized Online *One day workshop on “WEB PAGE DESIGNING”* for Third year student on 11th Oct, 2021 from 12.00 noon to 3.00 pm. There were 100 registrations of students and out of which 80 student participants actively participated in the STTP. Web Page Design is activity under the Term work of Skill Development subject for our Third Year Student.

Workshop program started with welcome inaugural speech by Dr. C.A. Manjare (HoD), Electronics and Telecommunication Department, Jayawantrao Sawant College of Engineering. She motivated the students to acquire technical skills like analysis, design and applications to society. She appreciated our initiative to make the value addition in our faculty members and students.

Resource Person:

Mr. Balasaheb Pawar

Founder & Director,

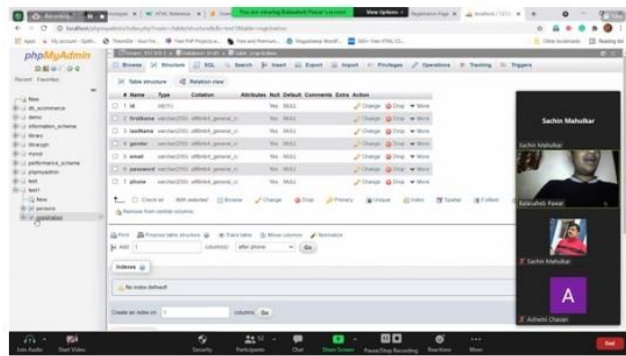

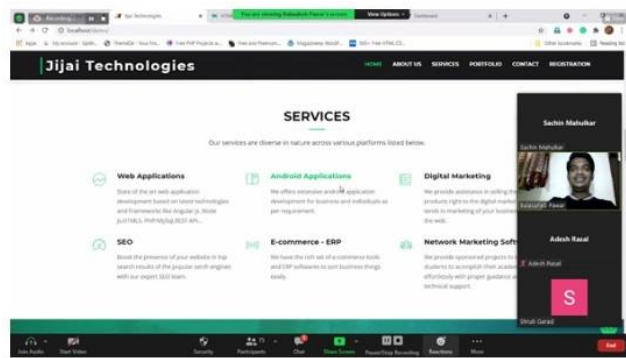

Jijai technologies Pvt. Ltd.

Topics covered during workshop:

- Different text formatting tags
- Links to different pages and allow navigation between pages
- Images, table and frame
- Style Sheet to maintain uniform style for all web pages
- Form creation that uses all types of controls
- Validate all the control placed on the form using Java Script
- **Sublime** is **text editor** for code, markup and prose.
- The **XAMPP** open source package

Outcome: Students are able to design a web page(s) using modern IT Engineering Tools and Technologies.

GLIMPSE OF THE WORKSHOP

Prof. S. S. Mahulkar
Event Coordinator

Dr. C.A. Manjare
