- **Title:** Training on IBM Skill Build

- **Objectives of the training:**

1. To imbibe knowledge of IBM cloud tools in students through the training with hands-on session.

2. To prepare students to tackle with real-world challenges using IBM Watson Studio.

3. To develop proficiency of students to utilize advanced tools that are highly sought after in the job market.

- **Description:**

The training is organised by Department of Information Technology on 22-24 July 2024. Training started with the welcome speech by Dr. S. R. Rangari, HOD IT. Prof. A. K. Gupta, event coordinator for the training, introduced session speaker for the training. Mr. Aditya Dambale (Corporate Trainer, Edunet Foundation, Pune). Training was conducted for three days along with practical sessions.

Trainer Details:

Name: Mr. Aditya Dambale

- Corporate Trainer, Edunet Foundation, Pune

IT certification: Data Science, Machine Learning

Work Experience:

2 years of experienced AI/ML Engineer with a team-oriented attitude.

Microsoft Certified: Azure Data Scientist Associate, Co Cybersecurity Analyst.

The training was arranged for SE IT students, which covers theory sessions as well as hands-on session to focus on practical aspects of IBM cloud tools.

Total 122 students have attended the workshop.

Training Details:

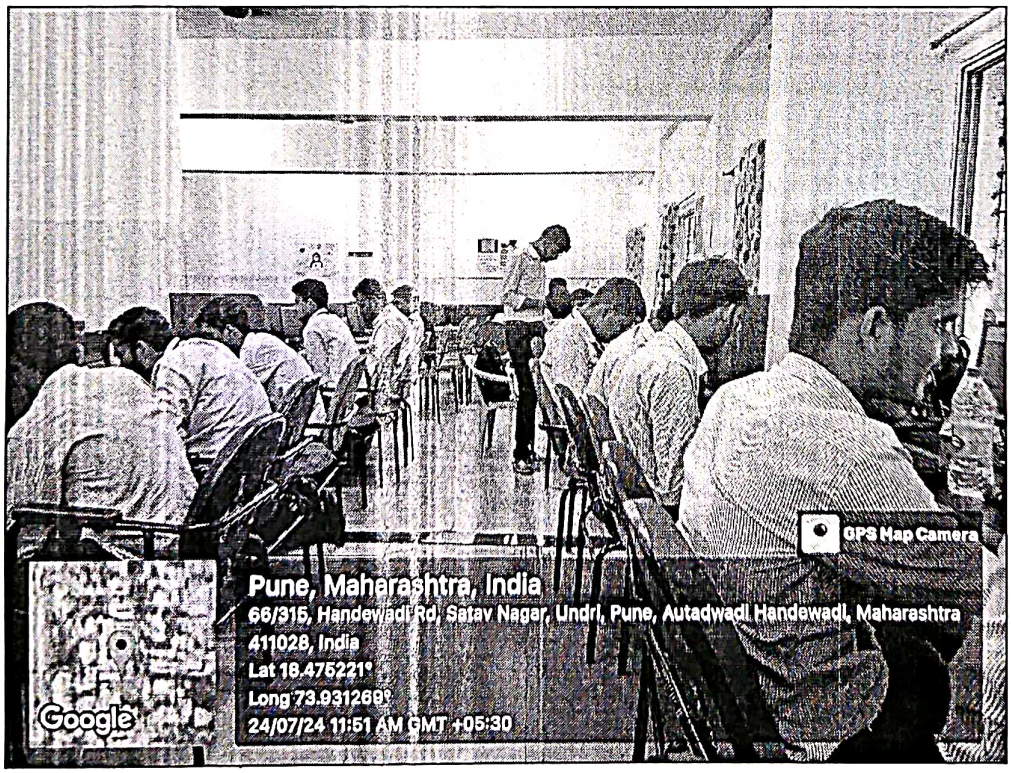

IBM Skill Build for college has been carefully designed to address this challenge by offering a comprehensive program that incorporates hands-on cloud-based applications. Through a strategic partnership with IBM, we are thrilled to provide our students with access to the IBM Cloud platform, which is widely used across industries. This collaboration enables the students to gain practical experience and develop in-demand skills in data science, cloud computing, artificial intelligence, and machine learning.

Prof. A. K. Gupta, faculty coordinator for training has concluded the training by thanking the trainer for sharing his valuable knowledge.

Feedback is taken from the students about the training.

- **Glimpses of the session:**

- **Outcome:**

1. Students learnt about IBM cloud tools through the training with hands-on session.
2. Students learnt the use of IBM Watson Studio.
3. It helped students to develop proficiency to utilize advanced tools that are highly sought after in the job market.
4. Practical assignments and projects of the training enabled students to apply their knowledge and gain hands-on experience in real-world scenarios.
5. Students got enhanced access to the IBM Cloud and select cloud-based resources, applications, and software's used in present day jobs.
6. This will also help students during their final year placements.
7. Students got access to courseware that offers the foundation for technology jobs of tomorrow, including emerging technologies, data science, cybersecurity, artificial intelligence and cloud computing.

Feedback Analysis & Action Taken Report

Programmed: IT Second Year

Semester: I

Number of Students Enrolled: 122

Number of Students Participated in the Feedback: 80

Average Feedback Score of the Workshop:

Feedback Score Range:

- Lowest Score: 85.5%
- Highest Score: 95.55%

Comment/Suggestion (If any):

- I got the chance to know about how cloud works and got to be a mentor to build a chatbot.
- More knowledge from scratch should be added.
- More information about cloud computing is needed.
- From this training I learn most concepts about AI. In future this is really helpful for me.

Action Taken:

- Discussed with students for areas where need to improve like trainer's communication, resource availability since student count was more.
- Discussed with students overall teaching feedback of trainer.
