Dear All,

## RPG Foundation Employability Skill Development Program (formerly Zensar ESD program)

AY – 2019-20

### Overview

RPG Foundation is currently running this program and it is renamed now as RPG Foundation Employability Skill Development Program. It is Free of Cost training to the students.

Zensar Technologies and RPGFoundation today announced the launch of the first ever Employability Skills Development (ESD) Program for training of fresh graduates towards better readiness for the IT industry, at no cost to the student.

Dr Ganesh Natarajan, Vice Chairman and CEO, Zensar Technologies Ltd and Trustee of the RPGFoundation at the occasion said, "I am pleased to announce the Employability Skills Development (ESD) Programme which aims to address a pertinent concern of the Industry and fresh engineering graduates today. Each year more than 80% of the jobs available for fresh engineers are created by the IT industry. Only 20% of those are fulfilled by engineering graduates who have industry ready talent, because the rest severely lack the skills required for the jobs that are available to them. Zensar's Employability Skills Development (ESD) Program is an initiative to address this talent deficit in our state and we are hopeful that this will be a role model program for the industry. In the first year, we plan to offer the Employability Skills Development program in 30+ colleges across India covering more than 500 students."

Dr. Ganesh Natarajan is also the Chairman of NASSCOM Foundation and leads many industry wide initiatives of change in the society through the Foundation including the recently announced National Digital Literacy Mission.

Pushpall Kapadia, VP and Head of Organisation Excellence Programme at Zensar Technologies said, "NASSCOM reports that only a quarter of engineering graduates are employable by the IT/ITES industry, and even those graduates, undergo a rigorous training program of 3-6 months with their employers after they join the companies. NASSCOM data suggests that the IT industry spends close to USD 0.75 Billion annually on training fresh campus graduates." At the launch of the EDC she said, "This Employability Skills Development Program from the RPG Foundation will be conducted at college premises through the Employability Skills Development (ESD) Centre where the program would render Skills Development training for fresh graduates in partnership with the academia and training partners. The focus of the programme will be to enhance technical, functional and soft skills of fresh graduates for effective working in the IT industry. The program has been designed based on decades of experience that Zensar has with global clientele and through a robust training partner ecosystem."

## Session / Training Overview

Prof Goraksh Girje Chairman Board of Studies IT at the University of Pune and Principal, PVG college of engineering Pune said, "When students are quizzed on the various technologies today and what makes one better than the other they are quite ready with all the details, but when you ask the same students to design solutions on their own, or talk about the application of the technology only a handful would be able to attempt it with success. The Employability Skills Development Programme promises to address bridging this knowledge gap so our students can make the connect to the industry relevance of all the theory they imbibe at college."

Through this program, Zensar will extensively deploy its training courseware, around real project scenarios that have been developed and practiced in the Industry keeping the training relevant for the students as well as the Industry they are getting ready for.

Zensar organizations will learn the key elements necessary to effectively design and deliver training to students in order to build the capacity of students as evidenced by:

- Increased effectiveness of students
- Increased efficiency students
- Increased awareness of students regarding job.

### Delivering Training

Selection for this training is done on screening test held when the students are in Pre-Final Year. Screening test is in form of Aptitude test and shortlisted students are enrolled for the training.

Training is delivered in phased manner in pre-final and final year without hampering the Academics sessions of the students.

Softskills	7 days	Soft skills and Aptitude
		Life skills / Behaviour Skills
		Communication and Presentation skills
		Database Management / SQL
		Java / .NET
		Advanced Java
		Manual Testing
		Automation Testing
		Artificial Intelligence / Machine Learning
		Python
Campus Readiness Training	5 days	IoT
		soft skills, Aptitude, GD, PI

Zensar provides this training for Skill development and as per their requirement they may recruit students as per their requirements.

Greetings from JSPM's JSCOE!!!!

JSPM group of Institutions has established Jayawantrao Sawant College of Engineering (JSCOE) as a second campus at Hadapsar, Pune in July 2004. Our department has intake of 180 seats for UG, 24 seats for PG with Design Engineering as a specialization. Also we have well established Ph.D. Research center. Our Institute is affiliated to SPPU, Pune. Vision of our department is to be recognized as a center of education for aspiring mechanical engineer catering ever changing needs of industry and society.

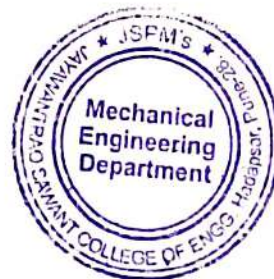

With your vast and in-depth knowledge in the area we are pleased to invite you for the expert guest lecture on "**Importance of CAD/CAE and hands on training on industrial components**" in the Department of Mechanical Engineering, JSPM's Jayawantrao Sawant College of Engineering, Hadapsar, Pune dated 17/07/2019 at 01.20 pm.

Your expertise and knowledge in the area will add a great value to the students who requires the guidance and path-breaking ideas to lead their way through the tough completion in the Global market.

We look forward to your presence and guidance.

**Subject: Letter of appreciation**

Respected Sir/Madam,

I would like to extend my sincerest gratitude towards you for your motivational speech during the expert lecture "**Importance of CAD/CAE and hands on training on industrial components**" on 17/07/2019 held at Department of Mechanical Engineering, JSPM's JSCOE, Hadapsar. Your views on topic of discussion and its execution have really broadened our horizons. Please accept our appreciation for such a commendable job. We will definitely take your words into practice. You have covered all important concerns for the topic and your description on how to execute it was remarkable.

Once again I would like to thank you for such a wonderful speech and hope to get a chance to hear such speeches from you in future also.

Thank You,
