Innovation By Faculty Member In Teaching And Learning

Name of Method : Use of Social Media

Description : Faculty members have created online forums for discussion and to create awareness of different technical aspects. These forums are providing a platform to discuss difficulties and share their ideas regarding subject and understanding views of other peers on given topic which is very useful in pandemic situation. Each course coordinator forms WhatsApp group at the beginning of semester for active participation of students in discussion, clarifying doubts about the course. It helps faculty to clarify doubts and ideas of students even after academic hours.

Suggested by : Prof.N.G.Padulkar

Link : <https://youtu.be/JiVjhTFdLwI>

Can be reproduced by :All faculty members of Electrical Department

Use of social media for Teaching

Outcomes : following are the outcomes that makes learning be more effective in pandemic situation

1. Improve interaction with students
2. Improve performance and knowledge
